

"The Entire Cosmos is penetrated by music and movement, combined in One Whole.

Paneurhythmy is the expression of this. It is based on the laws of correspondance among ideas, words, music and movements"

Beinsa Douno
(Peter Dunov)

THE SACRED PLACES OF WHITE BROTHERHOOD

"Rila Mountain is the oldest School. There is an ancient institute on it. Sometimes, souls from the Himalayas come to Rila to study at its libraries."

"Every day apply the microscopic Divine idea of giving away. Every day give away something from yourself. The giving away is life. Give away the best to have."

"Intelligent Nature has placed the sacred things at the high and inaccessible places, so that only the souls that are ready can enjoy and appreciate their beauty."

Beinsa Douno – Peter Dunov

NATIONAL PARK „RILA“

HUT

„RILSKI EZERA“

Every year there is a school in Rila Mountain. The begining of this tradition was initiated by Peter Dunov - Beinsa Douno.

"Nature speaks to us all the time. Every moment, every hour and every day it alters its pictures, it changes the scales of its songs and within this great variety it reveals the secrets of Reality to that person who knows how to read its books."

"Light is the sacred fire in Nature. It outlines the boundaires of objects and it makes them accesible to man... The power of man lies in the knowledge he has of the sacred fire."

Beinsa Douno – Peter Dunov

The Lakes are The Seven Eyes of the planet. The Lakes are seven musical notes.

*The first one you can call "**Maharzi**". This means "The great rest". There you can rest. The first Lake is the physical life.*

*The second Lake, where our sleep is, you can call "**Elbour**". This means "God is the strong One" .You can also call Elbour "The Lake of the trials". This Lake corresponds to the lower region of the astral world.*

*You can call the third Lake "**Balder-Darru**". These words translated mean "The one who gives the goods". This Lake corresponds to the highest region of the astral world.*

*The fourth Lake is called "**Twins**". This lake is connected with the mental world.*

*You can call the fifth Lake "**Mahabour**". This means "The bigger and the stronger". This Lake is connected with the causal world.*

*The sixth Lake is "**The Heart**". This Lake is connected with the buddhist consciuosness or nirvana.*

*The seventh one you can call " The Head" or "**Shemhaa**" This is a name of the Wisdom. It means the Supreme World.*

*Three thousand years before, the Advanced Creatures of Reason knew that we would go to the **Seventh Rila Lakes** and they prepared them for us.*

"A lot of work is required from man to learn how to think, how to feel, how to act correctly. It takes a long time for man to get the knowledge of God."
